The foot takes all the men.
The face, so fair and lovely,
May charm the gazer's eye
But if the foot is homely,
He'll quickly pass you by;
He'll quickly, he'll quickly,
He'll quickly pass you by.

If you feet is pretty, show it;
If you wish to catch the beaux,
No longer hide the tell tale charm Beneath so many clothes. The figure may deceive you, All hoop'd and padded o'er: But let me but survey the foot, I'll ask to see no more; I'll ask, I'll ask;

I'll ask to see no more. If your foot is pretty, show it When you trip along the street, For it will catch the eager eyes Of every man you meet. Don't toss your glossy ringlets, Nor pout your lips so sweet, But gently lift your petticoats

And show your handsome feet; And show, and show, And show your handsome feet

It Pays to Take Care of Implements.

There is danger lest, in the hurry of Eight day Seth Thomas Clocks, best quality, (with There is danger lest, in the hurry of work, tools large and small, will be exposed to rain or sun. Care of Trees in Orchards.

There seems to be a diversity of opinion as to whether Orchards should or should not be cultivated with other If trees appear weak and urthrifty in growth, the soil should be Tous, Coffees, Sugars, of all kinds, Molasses, Sy manured and cultivated until they assume a healthy and free growing appearance. After that, the Orchard should be seeded down to grass, not neglecting thereafter, as of the first importance, an annual top dressing or mulching under each tree.

It can be done we produce. think, and among the means recommended none seem more judicious than that given by a correspondent of the Gardener's Monthly. He has effectually prevented the ravages of this destructive pest by removing the earth from the stem of the tree, so that the bark will harden down on the collar. It is well known Provision and Family Supply that this insect never penetrates the tree at any other than where the bark, from its contact with the soil becomes tender This is doubtless correct, and if so, similar methods could almost as as easily be tried, and would perhaps be more effectual. One bottle cured me in two weeks, and restored my general health so much that I am far botter than before I was attacked. I think it a wonderful medicine. J. FREAM.

Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an offiction of the Liver, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a troken-down man for some years from no other cause than decomponent of the Liver. My beloved pastor, the fiev. Mr. Espy, advised me to try your Sarsaparilla, because he said lee knew you, and any thing you made was worth trying. By the blessing of God it has cured me, and has so parified my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough."

J. C. Ates & Co. Gents: I feel it my duty to acknowledge what your Saissparifia has done for me laving inherited a Scrohilous infortion. I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my inced and covered my early and cars with one serve, which was painful and loutisome beyond description. I tried many molicines and several physicians, but without much role from any thing. In fact, the alterday of Massengor that you had prepared an alterative (Essaparilla), for I know from your rejuitation that any thing you made must be good. I sent to Cincinnati and got it, and mossi it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon legan to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I fed what I am saying when I tell you, that I bold you to ! one of the apostos of the ago, and remain ever gratefully. Yours.

Leucorrheea or Whites, Ovarlan Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Chaming, of New York City, writes; "I most cheerfully comply with the request of your agent in saying I have found your Sarangarilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in Female Diseases of the Servictous dintresis. I have cured many inveterate cases of Leucorrheea by it, and some where the complaint was caused by uteration of the netron. The ulceration itself was soon cursed. Nothing within my knowledge equals it for these founds derangements."

Edward B. Marrow, of Newbury, Ala, writes, "A dangerous searcian times on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cursed by your Extract of Sarangarilla. Our physician thought nothing but extipation could afford relief, but he advised the trial of your Sarangarilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

New Oblease. 25th August, 1859.

Dr. J. C. Aten: Sir. I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have realized with your Sarsaparilla.

I have cured with it, in my prectice, most of the complaints for which it is recommended, and have found its effects tardy wonderful in the care of Veneral and Mercurial Disease. One of my patients had Syphilite ulcers in his throat, which were consuming his palate and the top of his month. Your Sarsaparilla, steadily taken, cured him in the weeks. Another was attacked by secondary symptons in his nose, and the ulceration had enten away a considerable part of it, so that I believe the disorder would soon reach his brain and hill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her benes. They had become so sensitive to the weather that on a damp day she suffered executating pain in her joints and bones. She, too, was caused entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that the tregacation from your laboratory must be a great remody; consequently, these truly remarkable recults with it have not supprised me.

Praternally yours,

G. V. LARIMER, M. D.
